WATSONVILLE,
CALIF.

This picture is an actual colored photograph of one of the best bushberry fields in America—80 acres located near Watsonville, Calif. Estimated production 400 to 600 tons of fruit per annum. Our Thornless Boysens and "Hydes' Phenomenal Nectars" have produced over 4 tons per acre 16 months after planting. 2-yr. crops often run 6 to 7 tons. Varieties in this field to distribute picking periods are Boysens, Thorn-

CITRUS STOCK

ORANGE, Valencia

ORANGES, Washington Navel. Seedless; winter.

Valencia. Best summer variety.

Tangerines. Everybody's favorite.

Blood Orange. Sweet and juicy; streaked red.

LEMONS, Eureka. Very juicy. Widely planted.

Lisbon. Strong, vigorous tree.

Meyer. Bears almost all year. Hardy.

LIMES, Bear's Seedless. Large fruit; rich flavor.

Rangpur. Reddish orange fruit. Resistant to cold.

GRAPEFRUIT, Marsh Seedless. Large; juicy.

Any of the above Citrus trees, \$6 each

AVOCADOS. \$7 each.

PERSIMMON. \$2 each.

GRAPES, Golden Muscat. Golden green. Vigorous; heavy bearer.

Pierce Isabella. Large; excellent flavor; black.

Concord. Medium-size; blue-black.

The above varieties, \$1 each

Thompson Seedless. Small; greenish yellow.

Muscat. Large; green; sweet. Dries.

Flame Tokay. Rich red; crisp and sweet.

Sweetwater. A good sweet arbor Grape.

Emperor. Late; red. Keeps well.

Ribier. Huge blue-black Malaga Grape.

Any of the above varieties, 35 cts. each;
10 for \$2.50

PRICES OF FRUIT TREES

Prices of all fruit trees: 4 to 6-ft. trees, \$1.25 each; 10 trees up at \$1 each. Ask for prices on 100 or 1000 of a kind. All single trees root- and top-pruned, ready for planting when requested.

For the home-garden with a small back yard we can furnish the following dwarf fruit trees to be planted 10 feet apart: Apples, Apricots, Pears, Plums, Cherries, our selection, at \$2.50 up.

Library,
U.S. Department of Agri.
Washington 25, D.C.

less Boysens, Nectars, "Hyde's Phenomenal Nectars", and many trial sorts. If you wish plants of exceptional quality, order early, especially for acreage plantings. Send for wholesale lists. Ask about our Soluble Fishmeal Fertilizer and Split Redwood Pickets.

ALMONDS

Drake's Seedling. Medium; round.
Ne Plus Ultra. Large, long. Very attractive.
Nonpareil. Large, smooth kernels. Commercial.
4 to 6-ft. trees, \$1.25; 10 trees up at \$1 each

WALNUTS

Franquette. Large, smooth nut. Our strain should bear in two or three years.
Payne. Very early. Heavy crop.
Eureka. Large, plump kernels.

Any of the above Walnut trees,
\$3.50 each; over 50 trees at \$3
each. Ask for
quantity prices.

AVOCADO

BEGONIA BULBS

Begonias have long been our specialty. Double Begonias, Camellia and Fimbriata, also Hanging Basket types. This year we offer double varieties in six different colors: red, white, yellow, pink, salmon, and orange. Large blooming-size bulbs, \$2.50 per doz.

NOTE: Add 2 1/2% California sales tax.

TERMS: Send cash with order, or deposit and we will ship C. O. D. if preferred.

The THORNLESS BOYSEN

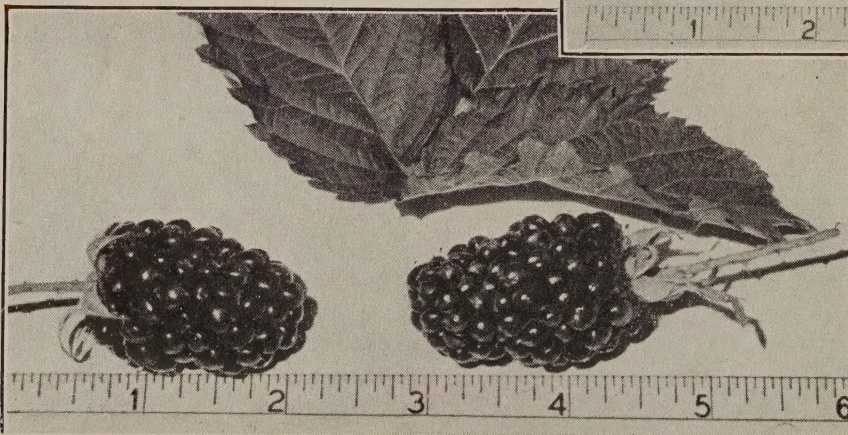

This queen of bush berries has come to rule. A strong, healthy grower and a heavy bearer. The field shown here fifteen months after planting yielded four tons per acre of fine luscious fruit. Note the short coupling of the stems, giving more bearing surface. Pickers surely love the thornless canes; the labor of handling and picking is cut down over 20%. Another field two years old yielded $5\frac{3}{4}$ tons to the acre without irrigation. One field yielded over 8 tons under irrigation.

We advocate 8 to 12 tons of manure to the acre, chicken compost or sheep preferred. Ample irrigation is necessary.

50 cts. each \$5 per doz.
\$20 per 100

NOTE SPLENDID SIZE

6 or 8 Berries

soon fills your crate

HYDE'S *fine* FRUIT TREES

Also see other page for additional varieties

PEAR, Bartlett

PEARS

Bartlett. Excellent flavor. Early.

Beurre Hardy. Rich, juicy. Good keeper.

Winter Nelis. Late fall. Rich flavor.

Comice. Absolutely the finest Pear grown. This is the famous Medford Christmas shipper.

PEACH, J. H. Hale.

A smooth-skinned variety of superior flavor.

APPLE, Red Gravenstein.

Large fruits of high quality. Early.

All fruit trees, except where noted, 4 to 6-ft., \$1.25 each; 10 or more of one variety \$1 each. If a large acreage planter, ask for prices.

HYDE'S *Giant Everbearing* RASPBERRIES

CUTHBERT. Large; crimson. Each Doz.
Hardy. \$0 25 \$2 50

BLACK-CAP. Firm black berries,
well flavored. 25 2 50

WASHINGTON. A vigorous,
heavy red Raspberry from the
Puyallup section of Washington. 35 3 50

WILLIAMETTE. A fine new vari-
ety from Oregon. 35 3 50

**HYDE'S GIANT EVERBEAR-
ING.** Splendid new red variety.
Produces many berries over 1
inch in diameter and bears from
April to November. Wonderful
flavor. Bears within 90 days on
new wood. Seventy berries over-
flow an 8-ounce basket. 35 3 50

STREAMLINED THORNLESS BERRIES

These have come to stay and replace the thorny sorts. Most of the varieties bear more heavily, and the ease of handling and picking more than offsets the additional cost of the plants.

Thornless Loganberries.

Thornless Youngberries.

Thornless Boysenberries.

Thornless Cory's. *Blackberry*

Thornless Himalayas (Oregon Evergreen).

Any of the above Thornless Berries,
50 cts. each; \$5 per doz.; \$20 per 100

The Five University Varieties

Donner. Early; good quality. Suggested for home gardens in California, especially Coast sections.

Lassen. High production and long-lived variety.

Shasta. Good producer for market or home use. For Coast sections.

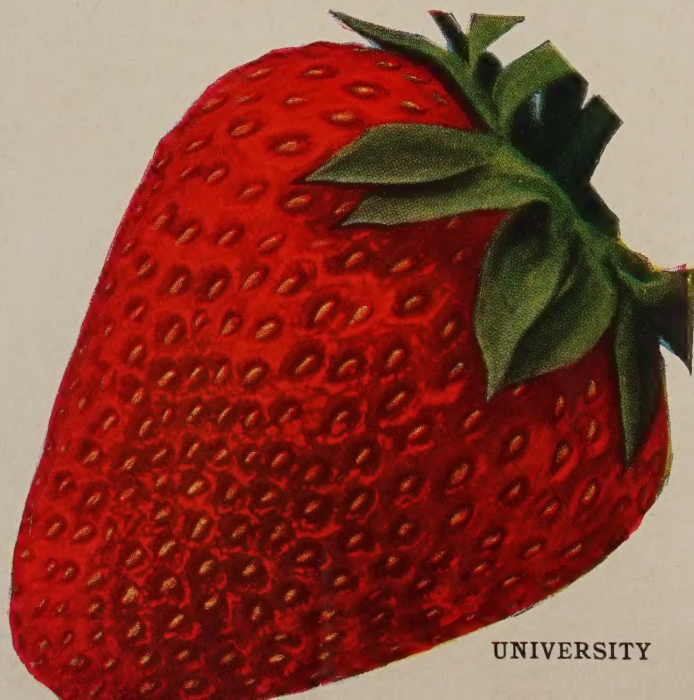

Sierra. For high production. Long-lived plants. Recommended for the Coast, but try it also in the interior.

Tahoe. A good disease-resistant sort. Fruit of excellent quality.

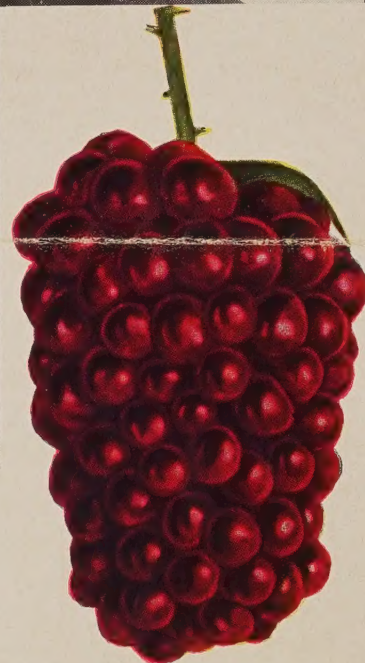

All University varieties, \$1 per doz.; \$5 per 100 plants

GROWERS-NURSEYMEN
WATSONVILLE, CALIF.

This season we are introducing five new varieties bred and named by our State University, and tested commercially at Salinas. Supply limited. On request, we will advise best ones for your soil and climate.

UNIVERSITY

HYDE'S *Phenomenal Nectar*

These plants are now offered for the first time in quantity. A fine, large berry of exceptional flavor, similar to the Boysenberry but often measuring $1\frac{3}{4}$ inches long, 1 inch in diameter, and running 20 to an 8-ounce market basket. Commercial yields are heavy. One of our fields gave three tons to the acre the first year, sixteen months after planting, and a larger, older acreage yielded over seven tons to the acre.

Prepare beds and fields with ample manure and plenty of irrigation. This variety is one of the best moneymakers known, if not the best.
